

JA-SAN FV

Fruit and Vegetables Wash

FEATURES

- High performance sanitising properties
- Concentrated
- No rinse application
- Automatic dilution

AREAS OF USE

- Fruit growing & processing industry
- Vegetable growing & processing industry
- Food handling areas
- Caterers

DESCRIPTION

JA-SAN FV is a clear straw coloured liquid, with lactic acid as an active constituent. It has been formulated for washing fruit and vegetable during the preparation stage prior to consuming.

DIRECTIONS FOR USE

JA-SAN FV is dispensed via the Jasol unique Cartridge System, which provides an automatic dilution rate of 1:256.

Submerge the prepared product (pre-rinse if heavily soiled) in a freshly prepared JA-SAN FV solution for 60 seconds at ambient temperature, unless otherwise directed. Remove and drain well. Rinse with potable water if desired.

Working solution must be dumped every 8 hours or sooner depending on soiling and loading.

SAFETY INFORMATION

JA-SAN FV is classified as Hazardous according to the GHS.

JA-SAN FV is classified as Dangerous Goods according to the ADG Code (7th Ed).

JA-SAN FV is a Scheduled Poison according to the SUSMP.

Avoid contact with eyes and skin. Refer to SDS for further information.

FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
