- HALAL approved
- KOSHER approved

AREAS OF USE

- Ovens & grills
- Rotisseries
- Hot plates
- Steak platters
- Deep fryers
- Hoods

DESCRIPTION

OVEN CLEANER is a highly alkaline liquid designed for rapid removal of grease and fats from ovens, hot plates, steak platters, hoods and deep fryers. An alkaline mix of surfactants, chelating and suspension agents promotes fast soil penetration and removal, while preventing its re-deposition. It is ideal for use on enamel, iron, stainless steel, porcelain and glass surfaces. However, not compatible with painted aluminium, brass and galvanised surfaces.

DIRECTIONS FOR USE

Do NOT use on painted aluminium, brass or galvanised surfaces. Do NOT spray or atomise the product.

Warm the oven to approx. 70°C. Turn the oven off and squirt OVEN CLEANER onto the surface. Leave to act for at least 5 minutes depending on the degree of soiling. Rinse off thoroughly with water. Heat the oven or hot plate for a few minutes after rinsing to facilitate rapid drying.

SAFETY INFORMATION

OVEN CLEANER is classified as Hazardous according to the GHS.
 OVEN CLEANER is classified as Dangerous Goods according to the ADG Code (7th Ed).
 OVEN CLEANER is classified as a Scheduled Poison according to the SUSMP.
 Avoid contact with eyes and skin. Refer to SDS for further information.

FIRST AID INFORMATION

If poisoning occurs contact a doctor or **Poisons Information Centre Australia, Phone 13 11 26**. If swallowed do NOT induce vomiting. Wash out mouth thoroughly with water and seek immediate medical attention. If in eyes, hold eyelids apart and flood with water for at least 15 minutes. If on skin, remove contaminated clothing and wash affected area with running water. Seek immediate medical attention.
