FEATURES

- Rapid action
- Suitable for 3M & Avery Dennison reflective films
- Ideal for any type of marks removal
- Easy to use and handle

AREAS OF USE

- Municipalities
- Traffic agencies
- Public facilities
- Industrial sites

DESCRIPTION

SO SAFE GRAFFITI REMOVER (PAINT YELLOW) is a solvent based product designed for slow paint removal allowing the user to clean highly sensitive surfaces layer by layer without damaging the substrate. It is ideal to remove graffiti from plexiglass, play ground equipment, buses, trains and other sensitive surfaces. It is also possible to remove graffiti from panel trucks with SO SAFE GRAFFITI REMOVER (PAINT YELLOW), though always test the substrate for compatibility before beginning.

DIRECTIONS FOR USE

Spray directly onto the area to be cleaned. Scrub with a brush or a cloth. Rinse off with water or wipe off with a clean cloth. When applying the product to the surface contact time is critical. The longer the product is left on the surface, the deeper it will penetrate. Ink/Marker graffiti is generally easier to remove with a simple wipe on & wipe off approach. Spray paints will require longer contact time.

Consult your Jasol representative for further information.

SAFETY INFORMATION

SO SAFE GRAFFITI REMOVER (PAINT YELLOW) is classified as Hazardous according to the GHS. SO SAFE GRAFFITI REMOVER (PAINT YELLOW) is NOT classified as Dangerous Goods according to the ADG Code (7th Ed).
